PROJECTS

Chat App (Flutter)

Developed a chat application using Flutter and Firebase, with user authentication, real-time messaging, and interactive chat experiences, showcasing my mobile app development skills.
Link - https://github.com/akila514/ChatApp

E-Commerce Website (MERN Stack)

Designed and implemented an E-Commerce platform using MongoDB, Express JS, React JS, and Node JS, implementing user authentication with JWT, and React-Redux for state management.
Link - https://github.com/akila514/E-Commerce-Website-MERN-

Social Media Platform (MERN Stack)

Developed a feature-rich Reddit clone using MERN stack, implementing user authentication with JWT, community creation, voting system, image uploads with Firebase storage, and commenting functionality.
Link - https://github.com/akila514/Reddit-Clone

Healthcare Desktop App (JavaFX & MySQL)

Created a healthcare desktop application with JavaFX and MySQL, to manage Doctor and Patient details using CRUD operations.
Link - https://github.com/akila514/Healthcare-App

Online Learning LMS Platform (Next JS)

Dynamic online learning platform with secure authentication, course & chapter creation, multimedia support, Stripe payment integration. Built with Next JS, Prisma, React, MySQL.
